## REGULATIONS FOR HIS MAJESTY'S COLONIAL SERVICES.

## PART I.—PUBLIC OFFICERS.

## CHAPTER I.—APPLICATION OF THE REGULATIONS.

1. The Regulations\* apply to public officers serving in the following Dependencies:—

Bahamas.	Gilbert and Ellice Islands	Nyasaland Protectorate.
Barbados.	Colony.	Palestine.
Bermuda.	Gold Coast (including	Saint Helena.
British Guiana.	Togoland).	Seychelles.
British Honduras.	Hong Kong.	Sierra Leone.
British Solomon Islands	Jamaica.	Somaliland Protectorate.
Protectorate.	Kenya.	Straits Settlements.
Ceylon.	Leeward Islands.	Tanganyika Territory.
Cyprus.	Malta.	Trinidad and Tobago.
Falkland Islands.	Mauritius.	Uganda Protectorate.
Fiji.	Nigeria (including the	Windward Islands.
Gambia.	Cameroons).	Zanzibar Protectorate.
Gibraltar.	Northern Rhodesia.	

*Note (1).*—The Regulations do not in themselves apply to officers in the service of the Federated Malay States, but the principles of the Regulations are applied to such officers by the incorporation of the substance of the Regulations in the Federated Malay States General Orders.

*Note (2).*—These Regulations apply to the British Resident, Trans-Jordan, and his staff.

2. In these Regulations the term "Colony" includes any territory in which the Regulations are applied; and the term "Governor" includes all officers appointed to administer Governments, however styled.

## CHAPTER II.—GOVERNORS.

A. *Appointment.*

3. A Governor is appointed during His Majesty's pleasure, but his tenure of office is as a rule confined to a period of six years from his assumption of the administration.

B. *Salary and Leave.*

4. When the office of Governor becomes vacant or when the Governor is on leave, other than full-pay leave, the person succeeding to the administration of the Government, if he be an officer in the service of the Colony, shall receive half the salary of the Governor, and half the salary of his own office.

Should the person called to the temporary administration have been transferred from the public service elsewhere, he shall receive the whole salary of the Governor, if available, but in that case he shall not be entitled to any portion of the salary of the office from which he has been transferred. During the absence on leave, other than full-pay leave, of a Governor, and after the embarkation of a newly-appointed Governor, such person is only entitled to the half salary available. Whether he may also receive half the salary of the office from which he has been temporarily transferred shall depend on the arrangements made for payment of his substitute, and shall be decided in each instance by the Secretary of State.

This Regulation does not apply to European officers in Tropical Africa.

5. The leave of a Governor is regulated by special rules of local application; but in most of the Colonies the Governor may be granted leave with full salary, exclusive of entertainment or duty allowance, for a period not exceeding six weeks in any one year. In the absence of the Governor from the Colony the officer administering the Government shall receive in full any allowance provided for entertainment and also any duty allowance.

6. If the period of a vacancy or of the absence of the Governor should exceed nine months, and there should be any salary available, reasonable arrangements shall be made, with the approval of the Secretary of State, for the increase of the salary of the temporary holder for the period of excess.

7. A Governor on appointment shall receive half salary if available from the date of embarkation for the Colony. An officer succeeding to the administration of a Government shall be entitled to be paid in respect of the day on which he assumes the administration. The officer whom he succeeds shall not be entitled to any payment for that day in respect of the administration of the Government.

8. If a Governor is transferred from one Colony to another and visits England on his way, and if the Secretary of State is satisfied that the visit is unavoidable or in furtherance of the public interest, he shall receive as a general rule the half salary of the office which he relinquishes, until the date of his embarkation from England; but if such half salary is not available he shall, as a general rule, receive the half salary of his new office. If no half salary is available from either Government, he can receive no salary.

\* In certain Dependencies the application of particular Regulations has been modified with the sanction of the Secretary of State.

*C. Passages.*

9.—(1) The following is the scale of allowances granted from Imperial funds to Governors appointed for the usual term of years in respect of their passages from this country :—

Bahamas .. .. .	£400	Malta .. .. .	£300
Barbados .. .. .	330	Mauritius .. .. .	720
Bermuda .. .. .	350	Nigeria .. .. .	450
British Guiana .. .. .	330	Northern Rhodesia .. .. .	600
British Honduras .. .. .	350	Nyasaland .. .. .	690
Ceylon .. .. .	610	Palestine .. .. .	340
Cyprus .. .. .	370	Saint Helena .. .. .	450
Falkland Islands .. .. .	580	Seychelles .. .. .	650
Fiji .. .. .	740	Sierra Leone .. .. .	350
Gambia .. .. .	370	Somaliland .. .. .	100
Gibraltar .. .. .	210	Straits Settlements .. .. .	690
Gold Coast .. .. .	440	Tanganyika Territory .. .. .	640
Hong Kong .. .. .	660	Trinidad and Tobago .. .. .	330
Jamaica .. .. .	300	Uganda .. .. .	630
Kenya .. .. .	630	Windward Islands .. .. .	330
Leeward Islands .. .. .	330		

The passages of the Commissioner of Somaliland and the British Resident, Zanzibar, are paid from the funds of those Protectorates.

(2) When a Governor is appointed for less than the usual term of years the question of the amount of the passage allowance to be paid will be decided according to the circumstances of the case.

(3) The scale of allowances shown in this Regulation shall be liable to revision from time to time as the Secretary of State and the Lords Commissioners of the Treasury may determine.

10. A Governor is not entitled to any passage allowance from Imperial funds when proceeding on, or returning from, leave of absence.

11. On the expiration of his term of office a Governor shall be granted a passage allowance in respect of the homeward journey of the same amount as that provided for the outward journey; but the allowance may not be drawn without the previous sanction of the Secretary of State.

12. A Governor who is relieved at his own request before the expiration of his term of office must provide his own passage.

13. A Governor transferred to another appointment before the expiration of his term of office shall receive such passage allowance as may be determined by the Secretary of State and the Lords Commissioners of the Treasury to be appropriate in the particular circumstances of the case.

14. A Governor who is transferred while in the United Kingdom on leave, other than final leave at the expiration of his term of office, and who does not return to his old Colony, shall receive the authorised passage allowance from England to his new Colony. If the usual route from his old to his new Colony is via England he may also be granted at the discretion of the Secretary of State a proportion not exceeding one-half of the homeward passage allowance from his old Colony to England.

*D. Passages in His Majesty's Ships.*

15. No passage in His Majesty's ships shall be given to Governors or other public officers at the public expense except on the application of the Governor to the senior naval officer on the station. The expense for the entertainment of such passengers will not be paid from public funds, unless the Secretary of State approves.

16. The expense for the entertainment on board of His Majesty's ships of a Governor or other public officer must be paid to the paymaster of the ship at the end of the voyage, and, if possible, before leaving the ship.

17. The scale of allowance for entertainment on His Majesty's ships at the table of the Captain or Commanding Officer is as follows :—

- I. For any Governor or High Commissioner whose salary is not less than £3,000 per annum exclusive of allowances, £4 per diem for the first seven days, and afterwards 21s. a day.
- II. For any other Governor, or for a Lieutenant-Governor, Administrator, or Commissioner, £3 per diem for the first seven days, and afterwards 21s. a day.
- III. For the persons composing the suite of Governors, etc., 21s. a day for each male person above the age of 16; two-thirds of that sum for every female above 16; one-third for such of either sex as shall be between the ages of 7 and 16; and one-fourth for such as may be under 7 years of age.
- IV. For other public officers 21s. a day for the first fourteen days, and 15s. a day afterwards: and the proportions with respect to age and sex as stated in the preceding paragraph.

Payment for entertainment in His Majesty's ships is to be calculated according to the dates of the first and last dinners taken on board.

18. When a Governor or other public officer is proceeding in a ship of war on a tour of inspection which requires him to disembark at various ports, the higher rate per diem shall in general only be paid for the seven days' entertainment following his first embarkation. If there are special reasons for repeating this higher rate, it must form the subject of special representation to the Secretary of State before it is made.

19. When a Governor or other public officer disembarks for the purpose of performing bona fide public service, and has not been able to give the Captain or Commanding Officer beforehand such information as to the days on which he will be absent from the ship as will prevent expense in preparing for his entertainment on those days, one-half of the rates of allowance above authorised shall be payable in respect of such absence, and each day in respect of which such half-rates are paid shall be counted as a full day for the purpose of computing the seven or fourteen days referred to in the preceding Regulations.

### CHAPTER III.—OFFICERS.

#### A. *Appointments.*

20. The Regulations as to appointment to public offices are directions given by the Crown to the Governors for general guidance and do not constitute a contract between the Crown and its servants.

21. Appointments to public offices are made by authority of His Majesty, and such offices are held during His Majesty's pleasure.

22. Judges of the Supreme Court are appointed in His Majesty's name by an instrument under the Public Seal of the Colony. Other appointments to public offices are made either (a) by letter signed by the Governor or written by his direction, or (b) by a formal agreement between the officer and the Colonial Government or its appointed agent.

23. Public offices are divided into three classes:—

Class I. Those of which the initial emoluments do not exceed two hundred pounds per annum.

Class II. Those of which the initial emoluments exceed two hundred but are less than four hundred pounds per annum.

Class III. Those of which the initial emoluments are not less than four hundred pounds per annum.

24. When a vacancy occurs in Class I an appointment may be made by the Governor.

25. When a vacancy occurs in Class II a provisional appointment may be made by the Governor and shall be reported to the Secretary of State for approval in the quarterly return of officers newly appointed to public offices in Classes II and III.

26. The powers of the Governor under the two preceding Regulations do not extend to the appointment or provisional appointment of a person not resident in the Colony.

27. The appointment to a public office of a person who has been connected with the Governor as a private secretary, aide-de-camp, or otherwise, is open to objection and must not be made without previous reference to the Secretary of State.

28. When a vacancy occurs in Class III the Governor shall report it immediately to the Secretary of State. The Governor may recommend a candidate to fill the vacancy, but it must be clearly understood that the Secretary of State may select another candidate. Any person who is appointed to act in the vacant office shall be distinctly informed that he holds the office only until his appointment is confirmed or superseded under directions from the Secretary of State.

29. In reporting a vacancy in Class III, the Governor shall furnish in duplicate full particulars of the office in the form given in Appendix 1.

30. In the selection of candidates for vacant offices in Classes II and III, the claims of meritorious public officers in the Colonial Service will generally take precedence of those of persons not already in the service.

31. Unless otherwise provided in the conditions of employment, the appointment of an officer not already in the service shall be subject to a period of probation in accordance with regulations approved by the Secretary of State. The Governor shall have power to terminate an officer's probationary appointment, without assigning any reason, during the period of probation. At the end of the period of probation the officer shall, unless his probationary appointment is terminated or extended, be confirmed in his appointment. The confirmation of an officer holding a post in Class III, or the termination or extension of the probationary appointment of such an officer, shall be subject to the approval of the Secretary of State.

32. The claims of officers for promotion will be considered on the basis of official qualifications, experience, and merit.

33. The Governor shall, save as otherwise directed by the Secretary of State, furnish annually a confidential report on the form given in Appendix 2 on every officer falling within any of the following categories:—

(a) Officers holding posts in Class III with eight or more years' service.

(b) Officers drawing £700 per annum or over.

(c) Officers who are not included in (a) or (b) who are heads of departments, or who are regarded as specially fitted for promotion or for transfer in the Colonial Service.

The Governor shall also submit an annual report on officers on the active list of the Army seconded for employment in the Colony, on whom reports are not made to the War Department direct.

#### B. *Acting Appointments.*

34. During the absence on full-pay leave of the substantive holder of an office, the arrangements made for the discharge of the duties of the office shall not involve any extra cost to public funds except:—

(a) where the Secretary of State has approved local regulations governing the grant of special remuneration in such cases, or

(b) in very special circumstances with the approval of the Secretary of State.

35. When an office is vacant in a Colony for any reason other than the absence on full-pay leave of the holder, the person appointed to act in that office shall be remunerated as follows :—

- (1) When the person appointed is not in the public service he shall be remunerated at such a rate as the Governor may decide, but not exceeding the initial emoluments of the office in which he is acting.
- (2) When he is the holder of another office but is not required to discharge the duties of that office while acting :—
  - (a) If his substantive emoluments are not less than the minimum emoluments of the office in which he is acting, he shall continue to receive the former;
  - (b) Otherwise he shall receive half the initial salary of the office in which he is acting and half the initial salary of his substantive office, and all the increments which he has earned in his substantive office, and any personal allowance to which he may be entitled, provided that he shall not receive in all more than the minimum emoluments of the office in which he is acting.
- (3) When he is the holder of another office and is required to discharge the duties of that office in addition :—
  - (a) If the offices are distinct and separate offices in different departments or do not stand to one another in any immediate relation of superiority or subordination, he shall receive half the initial emoluments of the office in which he is acting and the whole of his emoluments in his substantive office;
  - (b) Otherwise he shall be remunerated as though his case fell under section 2 of this Regulation.

For the purpose of this Regulation :—

- (1) *An officer's emoluments* comprise the whole of his receipts from public funds other than fees and allowances for out-of-pocket expenses.
- (2) *The emoluments of the office* are the emoluments paid in virtue of occupation of the office and do not include any allowances of a personal nature.

36. House allowance, if any, payable in respect of the office in which an officer is acting shall be paid to him if it is at a higher rate than the house allowance payable in respect of his substantive office; the latter shall in that event lapse, or accrue to the person, if any, appointed to act in the office. In no case may a person receive house allowance in respect of more than one office.

37. The fees, if any, of the vacant office shall be dealt with by local regulation.

#### C. Seniority.

38. Except where otherwise provided at the time of appointment, seniority as between persons selected for appointment from outside the Colony shall be determined by the date of arrival in the Colony. Where, however, two or more persons selected from outside the Colonial Service arrive on the same date seniority *inter se* shall be determined by the date of the letter from the Colonial Office confirming the selection, or, in the case of officers engaged on agreement, by the date of the agreement. Seniority in any department shall be determined by the date of an officer's appointment to the particular class or grade in which he is serving.

#### D. Salaries and Allowances.

39. On appointment to an office of a person not within the Colony, as a general rule half salary shall be paid as from the date of embarkation, and full salary from the date of arrival in the Colony, provided that the officer proceeds direct to the Colony to which he is appointed; otherwise he shall be paid half salary for such time only as is ordinarily required to perform the journey between the port of embarkation and that of arrival in the Colony.

40. If the appointment of an officer who is acting in a vacant office is confirmed, he shall receive the full salary of that office, if available, from the date on which he entered on the duties, but from the date from which he receives such full salary he shall not be entitled to salary on account of any other office which he may have held at the same time.

41. An officer who is promoted in the ordinary course in the Colony in which he is serving shall be eligible to receive the salary of his new scale, grade, or office, if it be available, as from the date when the vacancy occurred, even if he is on leave of absence at the date in question.

42. When the salary of an office is on an incremental scale, the holder shall not be entitled to draw any increment as of right, but only by sanction of the Governor. In the case of an officer (not being the head of a department) a certificate shall be required from the head of his department that he has discharged his duties with efficiency, diligence, and fidelity.

43. Except as otherwise provided an officer's incremental date shall be the date on which he takes up his appointment in the Colony.

44. Except in a case of promotion from a non-pensionable to a pensionable office, the following rules shall apply when an officer is promoted in the ordinary course in the Colony in which he is serving to an office carrying salary on an incremental scale :—

- (i) If immediately prior to his promotion the salary of the officer was less than the minimum of the new office, he shall receive the minimum; but if he had already earned in the scale of his former office such an amount of increment as would bring his salary up to the minimum of the scale of his new office, then any balance of the increment in his former office shall, subject to rule (iii), be taken into account in fixing the date of his first increment in his new scale.
- (ii) If his salary was not less than the minimum of the new office he shall, subject to rules (iii) and (iv), continue to receive his existing salary until by length of service at his new incremental rate he has earned such an amount of increment as will bring him to the next higher incremental step in the

new scale. But, if he was qualifying for increment in his former office, the date of increment in his new scale shall, subject to rule (iv), be advanced proportionately even though it may mean the immediate grant of one increment and the advancement of the normal date for a further increment.

- (iii) If he has served at the maximum (or fixed) salary of his former office for a period exceeding one year, then one-half of such excess period shall, subject to rule (iv), count towards an increment in his new scale, but in no case shall he be given more than one increment on this account.
- (iv) If his former office was one to which no duty, seniority, or similar non-pensionable allowance was attached, and he is promoted to an office carrying such allowance, he shall serve for a full incremental period in the new office before becoming eligible for an increment.

The term "salary" in this Regulation shall include any personal or other allowance which is payable in money and which ranks as a pensionable emolument.

45. When an officer receives, in addition to the salary of his office, an allowance granted to himself personally, and not permanently attached to his office, he may when absent on half-pay leave receive only half of such personal allowance, the remaining moiety being left undrawn and lapsing to the Colonial Treasury.

46. When an officer on leave is entitled only to half pay no private arrangement is to be made with the object of securing to him more than half pay.

47. An officer on leave shall not be eligible for any transport, travelling, or house allowance, or any fees.

48. An officer may, during periods of resident service, remit through the Crown Agents for the Colonies in single equal monthly instalments, a portion of his salary for payments to any bank, firm, or person he may name. Such payments shall not, as a rule, exceed half his salary, exclusive of duty pay and local allowances, but in exceptional cases the Governor may authorise remittances in excess of half salary. Requests for such payments may be made to the Crown Agents direct, before the departure of the officer from the United Kingdom, and will then remain operative until (1) altered or cancelled by the Colonial Government concerned through which all subsequent communications on the subject shall be sent, or (2) the officer comes on leave or his leave certificate reaches the Crown Agents.

49. No officer shall be entitled to claim compensation in respect of losses of or damage to private property incurred through fire, theft, riot, or otherwise, in the course of his service; but in special cases, subject to any local regulations, the Governor may consider the grant of compensation as an act of grace. No such concession shall, however, be made in respect of losses which in the opinion of the Governor were due to negligence for which the officer was responsible or which could reasonably have been covered by insurance.

### *E. Conduct and Discipline.*

#### *(a) General provisions.*

(N.B.—Further Regulations concerning the conduct of officers in connection with the receipt, custody, and disbursement of public funds and the custody of Government stores, etc., will be found in Part II, Chapter VII, of the Regulations.)

50. Officers are required to discharge any duties upon which the Governor may think it desirable to employ them.

51. An officer who is absent from the Colony without permission shall be liable to summary dismissal.

52. An officer whose remuneration is fixed on the assumption that his whole time is at the disposal of the Government is prohibited from engaging in trade, or employing himself in any commercial or agricultural undertaking.

53.—(1) An officer, whether or not his whole time is at the disposal of the Government, shall on appointment to the service of any Colony disclose to the Governor particulars of any investment or shareholding which he may possess in any company carrying on business in the Colony, or any other direct or indirect interest in such company, or in any local occupation or undertaking. If the Governor shall decide that by reason of the facts disclosed the officer's private affairs might be brought into real or apparent conflict with his public duties or in any way influence him in the discharge of his duties, the officer shall to such extent as the Governor may direct divest himself of such investments or interests.

(2) An officer shall not directly or indirectly acquire investments or interests of the nature mentioned in this Regulation without the express permission of the Governor.

54. Serious pecuniary embarrassment, from whatever cause, will be regarded as necessarily impairing the efficiency of an officer and rendering him liable to disciplinary proceedings at the discretion of the Governor.

55. An officer on leave of absence shall not accept any paid employment without previously obtaining the express sanction of the Secretary of State or, if his leave is spent in the Colony, of the Governor.

56. An officer shall not undertake any private agency in any matter connected with the exercise of his public duties.

57. An officer shall not, without the express permission of the Secretary of State or of the Governor, act as the editor of any newspaper, nor take part directly or indirectly in the management thereof, nor contribute anonymously thereto, nor publish in any manner anything which may be reasonably regarded as of a political or administrative nature.

He may, however, publish in his own name matter relating to subjects of general interest.

58. An officer, whether on duty or on leave of absence, shall not allow himself to be interviewed on questions of public policy or on matters affecting the defence or military resources of any part of the British Empire.

59.—(a) Governors and all other officers are prohibited from receiving valuable presents (other than the ordinary gifts of personal friends), whether in the shape of money, goods, free passages, or other personal benefits, and from giving such presents.

(b) This Regulation applies not only to the officers themselves but also to their families, and officers will be held responsible for its observance by their families. It does not apply to cases of remuneration for special services rendered and paid for with the consent of the Government.

(c) This Regulation may be relaxed on the occasion of an officer's final departure from the service of the Colony, but only with the special permission of the Secretary of State previously obtained.

60. Presents from rulers, chiefs, and other persons which cannot be refused without giving offence shall be handed over to the Government.

When presents are received on behalf of the Colonial Government in ceremonial intercourse they shall be handed over to the Government, and any return presents shall be given at the Government expense.

61. Money which has been subscribed with a view to marking public approbation of an officer's conduct may be dedicated to objects of public purpose and connected with the name of the person who has merited such a proof of the general esteem.

62. The Governor shall not without special permission accept or forward any articles for presentation to His Majesty.

(b) *Disciplinary procedure.*

63. Holders of patent offices may be removed from such offices by the Governor in Council under Section 2 of the Act 22 Geo. 3, c. 75, or they may be suspended or dismissed by the Governor under the powers in that respect conferred by the Letters Patent or other instrument of Government.

In either case the procedure prescribed under Regulation 68 should be adopted.

In the case of motion an appeal lies as of right to His Majesty in Council.

In the case of suspension the Secretary of State will as a general rule refer to His Majesty in Council the question whether the dismissal of the officer should be authorised.

64. An officer holds office subject to the pleasure of the Crown, and the pleasure of the Crown that he should no longer hold it may be signified through the Secretary of State, in which case no special formalities are required.

65. If it is represented to the Governor that an officer has been guilty of misconduct, and the Governor is of opinion that the misconduct alleged is not serious enough to warrant proceedings under Regulations 66 and 68, with a view to dismissal, he may cause an investigation to be made into the matter in such manner as he shall think proper, and the officer shall be entitled to know the whole case made against him, and shall have an adequate opportunity throughout of making his defence.

If as a result the Governor is of opinion that the allegation is proved, he may inflict such punishment upon the officer by way of fine or reduction in rank, or otherwise, as may seem to him just.

In the case of an officer whose pensionable emoluments exceed £200 a year any such punishment shall be immediately reported to the Secretary of State and the report shall be accompanied by a statement of the offence, the evidence in support, and such observations as the officer has made or desires to make. The Secretary of State may approve, vary, or remit the punishment.

This Regulation is without prejudice to any local law or regulation providing for the punishment of officers by the Governor or the head of a department.

66. An officer whose pensionable emoluments do not exceed £200 a year may be dismissed by the Governor, provided that in every such case where the officer has not been convicted on a criminal charge the grounds of intended dismissal are definitely stated in writing, and communicated to the officer in order that he may have full opportunity of exculpating himself, and that the matter is investigated by the Governor with the aid of the head of the department.

If such an officer is convicted on a criminal charge, the Governor may call for the records of the trial and form his decision thereon, with the assistance if necessary of the officer who tried the case.

In lieu of dismissal the Governor may remove the officer to an office of lower rank in the service, or may require him to serve in his original office at a reduced salary, either permanently or for a stated period, or may deduct a portion of salary due, or about to become due, to the officer. Such dismissal or other punishment will not require the confirmation of the Secretary of State, but any memorial from the officer must be forwarded to the Secretary of State without delay with a statement of the grounds of dismissal or other punishment.

67. Notwithstanding the above provisions, if the Governor considers that any such officer should be removed from the service on grounds of general inefficiency, he must call for a full report from the heads of the departments in which the officer has served; and if, after considering that report and giving the officer an opportunity of submitting representations on his own behalf, he is satisfied that it is necessary in the public interest, he may remove the officer. In every such case the question of pension will be dealt with under the laws or regulations of the Colony.

68. An officer whose pensionable emoluments exceed £200 a year may be dismissed by the Governor only in accordance with the following rules unless the method of dismissal is otherwise provided for in these Regulations or by local law:—

- (i) The officer shall by direction of the Governor be notified in writing of the grounds on which it is proposed to dismiss him and he shall be called upon to state in writing before a day to be specified (which day must allow a reasonable interval for the purpose) any grounds upon which he may exculpate himself.
- (ii) If the officer does not furnish such statement within the time fixed by the Governor, or if he fails to exculpate himself to the satisfaction of the Governor, the Governor shall appoint a Committee to inquire into the matter. The Committee shall consist of the Attorney-General, as Chairman, and two other members of the Executive Council.

- (iii) The officer shall be informed that on a specified day the question of his dismissal will be brought before the Committee and that he will be allowed and, if the Committee shall so determine, required to appear before the Committee and defend himself.
- (iv) If witnesses are examined by the Committee, the officer shall be given an opportunity of being present and of putting questions to the witnesses on his own behalf, and no documentary evidence shall be used against him unless he has previously been supplied with a copy thereof or given access thereto.
- (v) The Committee may, in its discretion, allow the officer to be assisted by a friend, being an officer in the public service, or in exceptional circumstances by counsel, and when such permission is given the officer's case may be conducted by such friend or counsel.  
The Committee may at any time withdraw their permission to the officer to be so represented, and refuse to hear his friend or counsel, in which case they shall allow the officer such adjournment as is reasonably necessary to enable him to present his case in person.
- (vi) If during the course of the inquiry further grounds of dismissal are disclosed, and the Governor thinks fit to proceed against the officer upon such grounds, the officer shall by the Governor's direction be furnished with a written statement thereof and the same steps shall be taken as are above prescribed in respect of the original grounds.
- (vii) The Committee having inquired into the matter shall make a report to the Governor, who shall consider the same in Executive Council. If the Council are of opinion that the report should be amplified in any respect or that further inquiry is desirable, they may refer any matter back to the Committee for further inquiry or report accordingly. The Council shall not itself hear witnesses save in exceptional circumstances and at the request of the Governor.
- (viii) If upon considering the report of the Committee the Governor is of opinion that the officer should be dismissed he shall forthwith suspend him from the exercise of his office and from the enjoyment of his salary and shall without loss of time report the matter to the Secretary of State, transmitting the minutes of the Council, the report of the Committee, a copy of the evidence and of all material documents relating to the case, together with a recommendation that the officer should be dismissed.
- (ix) If the Secretary of State approves the recommendation for dismissal, the Governor shall dismiss the officer and the dismissal shall take effect from the date upon which he was suspended by the Governor and he shall not be entitled to any salary subsequent to such date.
- (x) If the Secretary of State does not approve the officer's dismissal, and does not consider that any penalty should be inflicted, the officer shall be forthwith reinstated and shall be entitled to the full amount of salary which he would have received if he had not been suspended.
- (xi) If the Secretary of State considers that the officer deserves some punishment, but not dismissal, he will direct the Governor accordingly.
- (xii) If upon considering the report of the Committee the Governor is of opinion that the officer does not deserve to be dismissed, but deserves some lesser punishment, he may inflict such lesser penalty as seems proper in the circumstances, but shall, as in the case of a recommendation for dismissal, report the matter to the Secretary of State for approval. If the Secretary of State does not approve the recommendation, he will direct the Governor to annul, reduce, or increase the punishment.
- (xiii) If upon considering the report of the Committee the Governor is of opinion that the officer does not deserve to be dismissed, but that the proceedings disclose grounds for removing him on account of general inefficiency, he may recommend accordingly.
- (xiv) An officer who has been suspended may, pending the decision of the Secretary of State thereon, be granted an alimentary allowance if the Governor shall consider him to be in need of such assistance.

69. If in any case the Governor considers that the public interest requires that an officer should cease to exercise the powers and functions of his office instantly, he may interdict the officer from the exercise of the powers and functions of his office provided that proceedings for his dismissal are being taken or are about to be taken, or that criminal proceedings are being instituted against him. An officer who has been interdicted shall, unless and until he is suspended, be allowed to receive such proportion of the emoluments of his office, not being less than one-half, as the Governor shall think fit. If the proceedings against any such officer do not result in the dismissal or other punishment of the officer, he shall be entitled to the full amount of the emoluments which he would have received if he had not been interdicted.

70. If criminal proceedings are instituted against an officer, proceedings for his dismissal upon any grounds involved in the criminal charge shall not be taken pending the criminal proceedings.

71. If an officer is convicted on a criminal charge, the Governor may cause the proceedings of the Criminal Court on such charge to be considered in Executive Council, and if he is of opinion that the officer should be dismissed or subjected to some lesser penalty on account of the offence for which he has been convicted the officer may thereupon be dismissed or otherwise punished without any of the proceedings prescribed in Regulation 68 being taken, but the action must be reported to the Secretary of State for approval.

72. An officer convicted on a criminal charge shall not receive any emoluments from the date of conviction pending consideration of his case by the Governor.

73. An officer acquitted of a criminal charge shall not be dismissed on any charge upon which he has been acquitted, but nothing in this Regulation shall prevent his being dismissed or otherwise punished on any other charges arising out of his conduct in the matter, provided that they do not raise substantially the same issues as those on which he has been acquitted; and if the Governor thinks fit the usual proceedings may be taken for the purpose.

74. An officer who is dismissed forfeits all claim to a retiring allowance, even though he has paid contributions towards such allowance.

75. An officer who is under interdiction or suspension may not, without the permission of the Governor, leave the Colony during the interval before he is reinstated or dismissed.

76. Notwithstanding the above provisions, if the Governor considers that an officer whose pensionable emoluments exceed £200 a year should be removed on grounds of general inefficiency which cannot properly be dealt with by specific charges under the foregoing rules, he must submit a full report upon the case to the Secretary of State, forwarding statements from the heads of the departments in which the officer has served and the officer's reply thereto; and if the Secretary of State is satisfied that the officer's removal is necessary in the public interest, it will be carried into effect by an intimation to the Governor that it is the pleasure of the Crown that the officer should no longer hold his office. In every such case the question of pension will be dealt with under the laws or regulations of the Colony.

(c) *Memorials and Petitions.*

77. Every officer who has any representations of a public or private nature to make to the Governor should address them to the Governor through the Colonial Secretary. The duty of the Governor is to receive and act upon each representation as public expediency or justice to the individual may appear to require, with the assistance in certain cases of his Executive Council; and if he doubts what steps to take thereupon, or if public advantage may appear to require it, he shall refer the matter to the Secretary of State.

78. Any officer in a Colony has the right to address the Secretary of State, if he thinks proper; in which case he must transmit such communication, unsealed and in triplicate, to the Governor, requesting him to forward it in due course to the Secretary of State. Every letter, memorial, or other document which may be received by the Secretary of State from a Colony otherwise than through the Governor will be referred back to the Governor for his report or returned to the writer. The rule requiring transmission of communications to the Secretary of State through the Governor is based on the strongest grounds of public convenience, in order that all communications may be duly verified, as well as reported on, before they reach the Secretary of State. It extends, therefore, to communications relating to public affairs as well as to the concerns of the writer.

79. Petitions addressed to the King or the King in Council and memorials to officers or to departments of His Majesty's Government in the United Kingdom must be in like manner sent to the Governor for transmission to the Secretary of State.

80. The Governor shall transmit to the Secretary of State with all reasonable despatch every communication received by him in accordance with Regulations 78 and 79 accompanied by such report as its contents may appear to him to require.

F. *Passages.*

81.—(a) A person not already in the public service who is selected for appointment to a public office shall receive a free passage to the Colony, and he shall sign an agreement to refund the cost of the passage in certain contingencies.

(b) When an officer is transferred from one Colony on appointment to an office in another Colony, he shall receive at the expense of the Colony to which he is proceeding a free passage by the cheapest and most direct route.

(c) The question whether free or assisted passages to the Colony may be provided for an officer's wife and family on the occasion of his appointment or transfer, and the question of passage assistance when he proceeds on leave, shall be governed by local regulations made with the approval of the Secretary of State.

G. *Leave.*

82. The leave of absence of officers shall be governed by rules of local application as directed by the Secretary of State.

83. The Governor shall report to the Secretary of State each case in which leave of absence from the Colony has been granted. If any part of the leave is to be spent in Europe he shall transmit a leave certificate in the approved form. The officer proceeding on leave shall be furnished with a duplicate of the certificate to enable him to draw his salary. A third copy of the certificate shall be sent direct to the Crown Agent for the Colony, whether his salary is to be paid by the Crown Agents or not.

84. On arrival in Europe the officer shall report his arrival and address to the Colonial Office and the Crown Agents for the Colonies, and he shall notify any subsequent change of address. Treasurers and Auditors of Colonies whose accounts are subject to audit by the Director of Colonial Audit shall also send their addresses to the Colonial Audit Department.

85. In the case of an officer proceeding on leave to the United Kingdom, a statement shall be furnished showing whether or not he is to be examined on arrival by one of the Consulting Physicians to the Colonial Office.

86. If an officer is required to be examined by one of the Consulting Physicians, the Governor shall transmit full information regarding the officer's health record during his last tour of service, and a medical report of his state of health before proceeding on leave. The officer shall be furnished in writing with medical advice as to any precautions which he should take during the voyage and his subsequent leave.

87. Any officer who falls ill so as to require medical attendance during the voyage or during his leave of absence and remains ill for a week, must report the fact to the Colonial Office, and he shall, if required, send periodical reports from his medical attendant as long as he remains under medical care.

88. An officer seeking an extension of leave must, in the absence of exceptional circumstances, apply to the Secretary of State in sufficient time to allow of reference to the Colony by mail.

89. Leave may be extended by the Secretary of State if the officer is required or permitted to remain in the United Kingdom on public grounds.

90. Officers may be required by the Secretary of State to discharge any duty or to go through any course of instruction which he may think necessary during their leave of absence, and will not be entitled to any additional remuneration in consideration of such employment. Allowances may, however, be granted to cover necessary out-of-pocket expenses, and extensions of leave may be granted in appropriate cases.

## APPENDIX.

## APPENDIX 1.

## Regulation 29.

Particulars of the Office of  
vacant in the Colony of

Duties of Office, and qualifications required for their performance.

Emoluments of Office:—

(a) Pensionable.

(b) Non-pensionable.

Allowances, quarters, and other circumstances affecting the value of the Office, including grant of free assisted passages to the officer and his family on first appointment and on leave.

Nature, number, and amount of securities required, and mode of giving them.

Acts, laws, or ordinances, making provision respecting any of the above matters with reference to the laws in which such provision is made.

Whether house accommodation is available or readily procurable, whether furniture, etc., should be bought from England, and any other particulars of a like nature likely to be useful for the information of candidates.

Whether free medical attendance and medicines are provided.

Whether and, if so, what rates and taxes are payable.

## APPENDIX 2.

## Regulation 33.

*Colonial Service.*

*Annual Confidential Report.*

*(General.)*

.....(*Insert name of Colony*).

*I. To be filled in by the officer.*

Full name.

Whether married or single. Number of children.

Present post and date of appointment to it.

Present salary (if on scale particulars should be given with date of next increment), and other circumstances affecting value of appointment.

Professional or other qualifications; contributions to science, literature, research, etc., during the year.

Any special duties performed, or courses of instruction taken during the year.

Should an opportunity arise, would the officer wish to be considered for promotion or transfer outside the Colony in which he is at present serving? If so, he should state the nature of the work preferred, minimum salary, and any Colonies to which he would not desire to go.

.....(*Signature of Officer.*)

.....(*Date.*)

*II. Report by Head of Department.*

1. General conduct and personal characteristics.
2. Administrative ability.
3. Special aptitude (if any).
4. Suitability for promotion.
5. General remarks.

The substance of this report has has not been communicated to the officer concerned.

.....(Date.)  
 .....(Signature of Reporting Officer.)  
 .....(Title.)

*III. Reserved for remarks by Colonial Secretary in the case of Administrative Officers.*

.....(Date.)  
 .....(Signature of Officer.)

*IV. Governor's Report.*

.....(Date.)  
 .....Governor.

## APPENDIX 2 (continued).

*Colonial Service.**Annual Confidential Report.**(Professional and Technical Officers.)*

.....(Insert name of Colony.)

*I. To be filled in by the officer.*

1. Full name.
2. Whether married or single. Number of children.
3. Present post and date of appointment to it.
4. Present salary (if on scale particulars should be given with date of next increment), and other circumstances affecting the value of appointment.
5. Nature of work on which officer has been engaged during the year.
6. Special courses of instruction taken during the year giving dates, place of instruction and subjects of study.
7. Any contributions to literature and science during the year.
8. Any remarks as to particular work preferred.
9. Should an opportunity arise, would the officer wish to be considered for promotion or transfer outside the Colony in which he is at present serving? If so, he should state the nature of the work preferred, minimum salary, and any Colonies to which he would not desire to go.

.....(Date.)  
 .....(Signature of Officer.)

*II. Report by Head of Department.*

1. General conduct and personal characteristics.
2. Administrative ability.
3. Professional or technical ability.
4. Special aptitude for either administrative or specialist duties (if any).
5. Suitability for promotion.
6. General remarks.

The substance of this report  $\frac{\text{has}}{\text{has not}}$  been communicated to the officer concerned.

## SALE OF COLONIAL GOVERNMENT PUBLICATIONS.

The Crown Agents for the Colonies (4, Millbank, S.W.1) act as agents for the sale of Colonial Government publications.

# LIGHT RAILWAYS

For over **65** years we have supplied the bulk of the Light Railway Equipment used by the War Office, Admiralty, Air Ministry, India Office, Crown Agents for the Colonies and most Colonial Governments.

We have equipped throughout numbers of complete Railways—the illustration above showing one of these—and are in a position to supply almost any Light Railway Equipment. Due to the research work carried out we can probably show where tremendous economies in your proposed or existing installation can be made.

WE WILL USE THEM FOR THE GREAT WORK OF TRAINING 1,100 POOR  
BOYS AND GIRLS TO BECOME GOOD AND USEFUL MEN AND WOMEN

## THE SHAFTESBURY HOMES & "ARETHUSA" TRAINING SHIP

(Founded 1843)

have homes at Bisley, Esher, London, Orpington, Royston  
and Twickenham, and the Training Ship "Arethusa."

THE DAILY COST OF MAINTAINING 1,100 CHILDREN IS VERY HEAVY

An Urgent Appeal is now made not only for Donations but for Legacies

You cannot leave your money to a better cause, as these  
children will influence for good the future generation

PLEASE HELP

## Miss SMALLWOOD'S SOCIETY *for the Assistance of Ladies in Reduced Circumstances*

UNDER  
ROYAL PATRONAGE

AN URGENT APPEAL

## LEGACIES

"THEIR WORKS DO FOLLOW THEM."

There are many people who, alas, cannot give to  
this Society during their lifetime, but we shall be  
glad if they will remember that a Legacy, large or  
small, will be very useful and gratefully received.  
The need of help is greater than ever. Will you  
help in this very human cause?

*New Annual  
Subscriptions  
will be most  
thankfully  
received.*

*Please make cheques payable to Miss Smallwood's Society—*

***If in any doubt about your Insurance arrangements, or requirements, kindly communicate with the Head Office at Trafalgar House, Waterloo Place, Pall Mall, London, S.W.1***

Branches at Aldershot, Worcester, Birmingham, Bombay (India) and Kingston (Jamaica).

# A reputation built on other men's reputations

*By appointment.*

**M**EN with reputations for being well-dressed have built for Bernard Weatherill an envied reputation as a tailor. For many years this firm has been fashioning good cloth to the individual requirements of each client. So gradually, with each flawless fit and quiet perfection of style, a reputation for craftsmanship and faultless tailoring has become associated with the name Bernard Weatherill. Whether it be a Lounge Suit, Dress Wear or an Overcoat, that standard always has been, and always will be, adhered to.

In the making of Riding Breeches his is a name to conjure with, for, wherever men throw a leg across a horse, Bernard Weatherill is known as the acknowledged expert in apparel. But do not be under the impression that such excellence demands a heavy price. Actually the charges are a good deal lower than are demanded elsewhere in the West-End.

# When INCOME TAX presents a problem

**T**HE more complicated your Income Tax claims, the more does their success depend on a thorough understanding of Income Tax law and practice. That is why it pays you to take your Income Tax problems to an experienced Income Tax consultant. Apart from relieving you from all personal inconvenience, it assures the most satisfactory settlement of your case in the briefest possible time.

The service of Wilfred T. Fry Ltd. is backed by the knowledge and experience of over 36 years practice as Income Tax specialists. In cases of Income Tax recovery, their only charge is a small commission on the sum recovered. A free copy of Booklet 'A', containing valuable information for Income Tax payers, gladly forwarded on application.
